Featured Work / 代表性案例

1

客户 /Client: 某豪华汽车品牌 / A Luxury Car Brand

案例描述: 深演智能为其制定了整合线上与线下全渠道触点, 执行个性化客户沟通解决方案, 从 0-1 搭建客户数据管理平台, 开展满足日常营销活动的客户洞察决策论, 构建全渠道直连客户解决方案, 提升业务指标, 并预测线索意向度。在业务指标方面, 该品牌的线索有效沟通率提升了 130%以上, 线索意向率提升了 30%以上, 营销活动有效触达率提升了 40%以上, 帮助该品牌顺利实现了业绩的突破。

Case Study: The brand benefited from an integrated online and offline omni-channel touch point solution developed by our team, which enabled personalized customer communication through various channels such as WeChat, SMS, and email. We also built a customer data management platform from scratch and conducted customer insights analysis to support daily marketing activities. Additionally, a full-channel direct customer solution was constructed to improve business metrics and predict lead intent. As a result, the brand's effective communication rate with leads increased by over 130%, lead intent rate increased by over 30%, and effective reach rate of marketing activities increased by over 40%. These improvements helped the brand achieve breakthrough performance.

2

客户 /Client: 某大型实体零售集团 / A Physical Retail Giant

案例描述: 深演智能对项目进行了全景业务规划和分阶段实施咨询。通过 CDP 系统对子体系全渠道客户整合并进行有效和智能化分析, 再通过 MA 自动化营销模块进行高效触达, 实现全渠道覆盖率的提升, 最终达成单个渠道复购率和整体销售提升的目标。系统上线后半年, 该集团跨渠道顾客比例上升了 20%, 跨渠道客户平均客单价提高 76%。

Case Study: DeepZero | iPinYou provided comprehensive business planning and phased implementation consulting for the project. We aggregated, governed, and analyzed the group's customer data across all channels using a CDP system to identify high-value customers and tagged them. Then we used an automation marketing module for efficient and personalized outreach. This resulted in increased coverage across all channels and achieved the goal of increasing single-channel repurchase rates and overall sales. Six months after the system went live, the group's cross-channel customer ratio increased by 20%, and the average customer order value for cross-channel customers increased by 76%.

3

客户 / Client: 某高端化妆品 / A High-end Beauty Brand

案例描述: 一家高端美妆品牌希望在双十一大促期间激活沉睡用户, 提高销售额。深演智能提出: 1. 通过智能模型+数据分析双引擎驱动, 对品牌用户进行精细化的分层分群。2. 针对每个分组的用户, 匹配不同的 offer 策略, 并设置 A/B Test, 快速验证策略结果并及时在活动期间进行调优。3. 通过企微智能任务平台与品牌企微进行对接, 实现导购任务的一键下发, 从而实现导购可以快速执行深演智能的精细化运营策略。最终, 深演智能帮助品牌提高了3倍沉睡用户召回率, 带来了百万级的销售额提升。同时, 品牌利用深演智能企微智能任务平台, 实现线下门店 BA 个性化与消费者沟通, 帮助门店导购提升沟通效率以及转化率, 最终, 企微沟通人群召回率为彩信沟通人群的 1.5 倍。

Case Study: A high-end beauty brand wanted to activate dormant users and increase sales during Double 11. DeepZero | iPinYou proposed a solution: precise segmentation using intelligent models and data analysis, matching different offer strategies for each user group, and connecting with the brand's WeCom through an intelligent task platform. The result was a 3x increase in dormant user recall rate and a million-dollar sales increase. The brand also achieved personalized communication between offline store BAs and consumers, improving communication efficiency and conversion rates.

4

客户 / Client: 不凡帝 / PVM

品牌 / Brand: 阿尔卑斯硬糖 / ALP, 阿尔卑斯棒棒糖 / LLP, 阿尔卑斯果然好嚼 / IC, 阿尔卑斯乐嚼 Q / Jelly, 曼妥思 / MTS, 珍宝珠 / CCP

案例描述: 针对品牌不同产品线的目标人群, 利用深演 DASS 数据库, 结合运营商数据, 圈定人群包, 定向投放 APK&OTT 贴片广告, 并且在十多家媒体间进行联合频控, 提升品牌广告的 N+reach 目标。同时, 将投放人群回流至品牌天猫 Databank, 分析投放人群的电商属性, 反哺前端人群定向策略, 在长期投放合作中, 持续优化 KPI, 为品牌节省营销预算。

Case Study: We used DeepZero | iPinYou DASS database and operator data to identify and locate specific audiences for different product lines of PVM. APK&OTT overlay ads were then targeted to these audiences, and joint frequency control was applied across multiple media platforms to increase the N+ reach of the brand's advertising. Simultaneously, the targeted audiences were redirected to the brand's Tmall Databank (AIPL) for analysis of their e-commerce attributes, which was then used to adjust the targeting strategy to boost awareness and conversions. This optimization is continuously carried out in long-term cooperation to save the brand's marketing budget.

5

客户 / Client: 资生堂 / SHISEIDO

品牌 / Brand: 资生堂 / SHISEIDO, NARS, CPB

案例描述: 基于深演智能行业经验沉淀各类行业人群包、标签体系和丰富的三方生态合作数据, 帮助集团各品牌建立核心美妆 TA 人群矩阵, 进行公域营销触达沟通, 以及对于媒体投放曝光/点击人群进行多维度画像分析, 为人群运营提供策略洞察报告, 帮助品牌在公域投放中精准覆盖高价值 TA。同时, 投放后帮助品牌实现全链路数据打通, 提升广告投放效率的同时, 为各品牌沉淀分人群、媒体、素材的后链路表现数据, 并持续优化投放策略。

Case Study: Our approach involves using DeepZero | iPinYou proprietary labeling system, third-party beauty audience packages, and third-party data to establish China target audience matrices for the diverse brands within the group. We then activated these audiences through programmatic advertising campaigns and analyzed the exposure and click-through rates to modify targeting strategies. This provided us with valuable insights to optimize the campaign and successfully target high-value customers. Additionally, we connected media and social activation for e-commerce growth and optimized advertising strategies using e-commerce performance data to improve targeting and creatives.

6

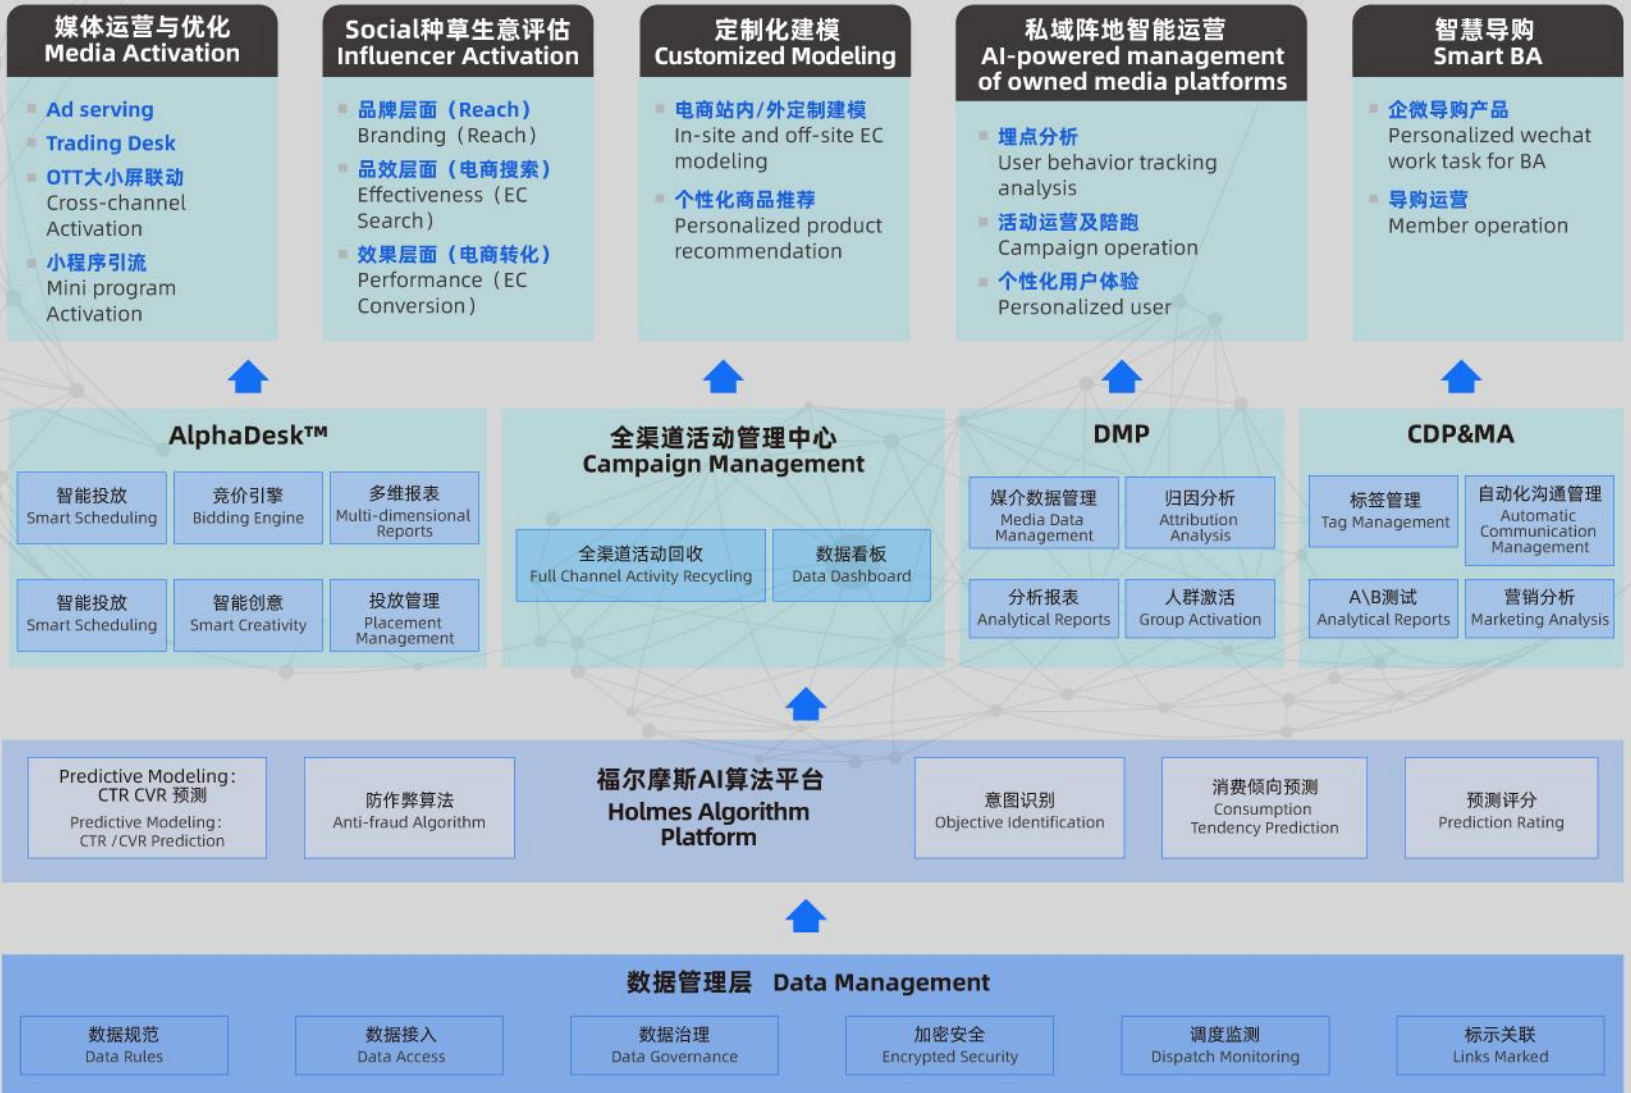

客户 / Client: 某欧洲国家旅游局 / Tourism Agency of an European Country

案例描述: 深演智能通过人群+媒体+创意三大策略, 触达客户目标人群。我们通过互联网用户行为挖掘, 通过技术精准触达有过旅行搜索、机票预订的商务出行、旅游度假、亲子家庭人群; 匹配 500 万移动设备和 OTT 进行大小屏联动投放, 最终展示了 1320 万强展现广告。4 个月内提升点击率 2.3%, 为该国家带来 211% 的机票购买数量提升。此外, 我们可以通过所有跨设备匿名数据来进行用户画像分析, 并制作个性化素材进行持续的再营销。

Case Study: DeepZero | iPinYou reached potential customers who were frequent business and holiday travelers, as well as family segments, through interest-based targeting. By continuously re-engaging with customers who have previously searched or booked travel services, we optimized the campaign performance, resulting in a 2.3% increase in clickthrough rates and a remarkable 211% increase in flight bookings from China within 4 months. Our approach enable us to match 5 million mobile devices with OTT devices and deliver unskippable impressions at a scale of 132 million. Furthermore, we collect anonymous data across multiple devices to create profiles for re-targeting with personalized creatives and sequential messaging.
